SAP EWM Senior Consultant (f/m/d)

Description

We are looking for you as SAP consultant (f/m/d) to expand our knowledge advantage and offer expert knowledge in a growing logistics market with your help. You are specialized in the market-leading warehouse management software SAP EWM and realize concepts and projects with our customers. You will advise our customers on project and product-specific issues – either directly on site or remotely from your workplace.

As Senior Consultant SAP EWM (f/m/d) you will manage customer projects. For this purpose, you will have project teams with up to 10 consultants and developers at your disposal, which you will lead both professionally and organisationally. We offer you the chance for an outstanding career in a very successful and dynamic company. At LogiPlus you can expect comprehensive training opportunities, flat hierarchies and plenty of scopes for ideas and initiatives.

Responsibilities

- Cooperation/ project management in international projects
- Independent execution of business process analyses; alignment with the business strategy
- Reengineering of business processes and organisational structures
- Creation of concepts, blueprints and functional specifications
- Customizing of SAP EWM or SAP MFS
- Systematic further development of your SAP skills
- Implementation/leadership of user training
- Maintenance of customer relations

Qualifications

- Several years of experience in the implementation or development and customising of SAP EWM
- Experience in SAP EWM core processes
- Basics in SAP SCM including master data and distribution models
- Knowledge in integrative topics such as planning, purchasing, production, sales and sales order management in both SAP ERP and SAP SCM
- Relevant industry experience (consumer products, pharmaceuticals, chemicals, retail, high-tech or automotive)
- Professional experience as consultant/senior Consultant in the supply chain management area
- A good university degree and business fluent English skills
- High analytical skills, creativity, initiative and excellent communication and presentation skills
- A pronounced affinity for management consulting topics

Job Benefits

- Excellent opportunities for development and freedom in an exciting project
